

The Greening of the Business Law Brief

Beginning with this issue of Business Law Brief, the Brief will be printed in accordance with the standards established by the Forest Stewardship Council (FSC) that are designed to eliminate habitat destruction, water pollution, displacement of indigenous peoples and violence against people and wildlife that often accompanies logging.

Achieving FSC Certification requires that every step of the printing process, from lumber gathering to transportation to printing to paper sorting, must comply with the chain of custody established by the FSC which runs a strict auditing system to maintain the integrity of their certification process.

Currently, FSC Certification is one of four methods a publisher can employ to ensure its publications are being produced

using the best sustainable practices. It is also the method practiced by our printer, HBP, Inc. (FSC Chain-of-Custody Certification: SW-COC-002553).

Business Law Brief is printed using vegetable based inks, formulated to reduce use of petroleum distillates and volatile organic compounds (VOCs).
