

SYMPOSIUM ON PATENT POLICY

Panel 3: Exclusionary Relief/Injunctions

Issues in exclusionary and injunctive relief in patent policy. Discussion on two forthcoming Landslide® magazine articles *Revisiting eBay: A Can of Worms* co-authored by Priya Nair and *Injunction Junction: What's the ITC's Function?* by Wayne T. Brough.

Moderator

Timothy Syrett, Partner, WilmerHale

Timothy Syrett is an intellectual property and antitrust litigator. He has particular experience with disputes at the intersection of antitrust and intellectual property law. Tim has litigated for leading technology companies a variety of issues relating to standard-essential patents, including antitrust and contract claims, the determination of FRAND royalties, as well as defenses to infringement arising from standard-setting participation. In addition to his litigation practice, he counsels clients on intellectual property and antitrust issues, including negotiating FRAND licenses, participation in standard-setting organizations, and government advocacy regarding FRAND issues. Tim has been recognized for his intellectual property and/or antitrust work in *Chambers USA*, *Massachusetts Super Lawyers*, *The Legal 500*, and *Lawdragon*. He is also a frequent speaker and author on FRAND licensing and litigation issues.

SYMPOSIUM ON PATENT POLICY

Panelists

Priya Nair, Senior Intellectual Property Policy Counsel , ACT | The App Association

Priya Nair is an intellectual property attorney at the forefront of hot-topic debates on IP implications of generative artificial intelligence (GAI), blockchains, and other emerging technologies. Priya is passionate about supporting an ecosystem that advances innovative and creative works. She represents the interests of small and medium-sized businesses and start-ups on an international and local scale across major jurisdictions (US, EU, UK), emphasizing laws and regulations

that support all participants in a market.

Priya is already a rising prominent voice in IP protection and enforcement. She briefs policymakers on Capitol Hill, speaks nationally and internationally among industry experts, and has drafted an amicus brief to the U.S. Supreme Court.

Wayne Brough, Resident Senior Fellow, Technology and Innovation, R Street

Wayne Brough is a resident senior fellow on R Street's Technology and Innovation team. He focuses his research on antitrust and competition policy, intellectual property, and patent law. Prior to R Street, Wayne was the president of the Innovation Defense Foundation, a free-market think tank focusing on technology policy that he co-founded. Additionally, Wayne was the chief economist and vice president for research for FreedomWorks, where he oversaw research on a broad portfolio of issues, promoting market-based solutions to public policy questions. Wayne received

his PhD in economics from George Mason University, with a focus in industrial organization and public choice. Wayne lives with his wife Barbara and dog Bilbo in Arlington, Virginia.

SYMPOSIUM ON PATENT POLICY

Laura Sheridan, Head of Patent Policy, Google

Laura Sheridan is Head of Patent Policy at Google, advocating for an effective patent examination process, a patent litigation system that operates fairly for all participants, and transparency in these areas. She has shared her views on patent issues in numerous policy dialogues, including testifying before Congress on the intersection of AI and patents. Her patent policy work is shaped by years of private practice experience in patent prosecution, litigation, due diligence, and post-grant practice before the Patent Office. An active member of the IP community, Laura is part of the Intellectual Property Owners Association delegation to IP5 Industry, a group which engages on procedural harmonization matters with the IP5 Offices (the Offices of China, Europe, Japan, Korea, and the US). Laura is a member of the Board of the Federal Circuit Bar Association and the Advisory Board for the NYU Law Engelberg Center on Innovation Law & Policy. Laura studied mechanical engineering at Cornell University and received her J.D. from Fordham Law School.
