Skills and Stories to develop a Career in International Trade

The American University Washington College of Law and WIIT Trust are proud to host an interactive discussion on careers in international trade.

The panel brings a wide range of experience on the variety of opportunities in trade, from law to government to corporate practices; as well as the range of trade issues from working on trade negotiations to market access/development to trade compliance and advocacy. Key focus of the discussion will be the skills necessary to succeed in trade - from experience to communications to analysis and social networking.
